**Economic Newsletters**

# ANNUAL OUTPUTS

## PERO

To provide **in-depth analysis** of the provincial economy that could be used as the basis for policy decisions as well as information for other stakeholders and the public at large.

Analyse, economic performance and the labour market.

Analysis done on national, provincial and municipal level.

## SERO

Analyse socio-economic variables that affect the lives of ordinary people in Gauteng.

Looks at demographics, economic review, labour market, access to services, development and lately issues of the environment.

Analysis done on national provincial and municipal level.

## INTERNAL SUPPORT

### MTBPS CHAPTER 1

- Compilation of Chapter 1 of the Medium Term Budget Policy Statement for the Fiscal Policy Directorate

### BS1 INPUTS

- Provide Inputs into the Budget Statement 1 for the Budget Management Chief Directorate

# BI-ANNUAL OUTPUTS

## IMPACT STUDIES

- Use simulations on the Computable General Equilibrium (CGE) model to analyse implications of policy decisions on the economy.
- The model uses the Social Accounting Matrix as its data base.
- **Topics covered:** Impact of the FIFA World Cup on the economy.
- **Current research:** effect of electricity price hikes by Eskom.

## RESERVOIR OF ECONOMIC INFORMATION

- Conferences held after the major publications, SERO and PERO.
- This with the aim of engaging stakeholders on our findings and getting feedback on how to improve on our publications going forward

# QUARTERLY OUTPUTS

---

## Publish Quarterly Bulletins

On interesting topics in the economy both national and provincial, include global issues at times.

EA has developed a database of topics to choose from.

The latest topic was “ **Opportunities Created by the Fincial Crisis**”.

# WEEKLY OUTPUTS

---

## Publish Economic Newsletters

Weekly Economic Newsletters inform readers on current economic affairs to keep them abreast of what is happening in the economy/financial markets.

**The end**

**Thank you!**
